# About Interactive Data Systems Ltd.

---

**Interactive Data Systems Ltd. (IDS)** delivers enterprise-grade digital platforms that unify fleet, asset, inventory, and workforce management into one intelligent ecosystem. Our solutions provide real-time visibility, operational control, and data-driven insights to help organizations operate smarter and faster.

**Our Focus: Efficiency, Compliance, Performance.**

**Mission: Empowering organizations with clarity, control, and confidence.**

## Key Objectives

- Reduce operational costs.
- Minimize asset loss.
- Improve compliance, governance, and safety.
- Enable data-driven decision-making.
- Increase productivity across all departments.

# Equipment Tracking And Maintenance (ETM)

Equipment Tracking Management (ETM) is an integrated enterprise platform that centralizes operational control across fleet, asset, inventory, and workforce management. It provides real-time visibility, utilization analytics, and streamlined processes from deployment to disposal. ETM improves efficiency, reduces costs, enhances resource planning, and enables data-driven decision-making across projects and locations.

## Fleet

Total visibility from deployment to disposal with utilization analytics.

## Asset

Centralized control over IT, software, facilities, and shared assets.

## Inventory

Real-time material visibility across projects and warehouses.

## Workforce

Streamlined HR processes enhance employee engagement.

# Fleet Tracking And Maintenance

## Maximum Operational Efficiency

---

A smart, integrated solution designed to optimize fleet operations with real-time visibility and data-driven control. Improve asset utilization, reduce operational costs, and ensure regulatory compliance across your organization.

## Key Benefits

- Improve asset productivity
- Reduce unnecessary fleet size
- Real-time fuel consumption tracking
- OEM-based automated reminders
- Reduced breakdowns
- Zero compliance penalties
- Reduce hire inefficiencies
- Geo-fencing alerts

# Key FLEET capabilities

## Operations & Maintenance

---

- ✓ Equipment issuance, return, and transfer tracking
- ✓ Maintenance scheduling and breakdown management
- ✓ Fuel utilization monitoring and anomaly detection
- ✓ Vehicle utilization and idle time analysis

## Compliance

---

- ✓ Driver performance metrics and route tracking
- ✓ RTA renewal and insurance compliance management
- ✓ Hire vehicle management and work order processing
- ✓ Insurance claim tracking and vehicle disposal

# Asset Tracking And Maintenance

## Centralized Control

Manage the entire lifecycle of enterprise assets, from acquisition to disposal. The system covers IT assets, software licenses, vehicles, facilities, land & buildings.

- **QR-Code Tagging:** Simplify audits and tracking.
- **Digital Workflows:** Streamline requests and approvals.
- **Real-Time Assignment:** Know who has what, instantly.
- **Maintenance:** Schedule preventive care for physical assets.
- **Alerts:** License renewal, Rental & tax reminders.

# Key ASSET capabilities

## Key Features

---

- ✓ Centralized asset onboarding and classification
- ✓ Real-time asset tracking and automated returns
- ✓ Maintenance history and cost tracking
- ✓ Policy documentation and renewal alerts

## Benefits

---

- ✓ Complete asset visibility
- ✓ Reduced paperwork
- ✓ Faster asset allocation
- ✓ Better lifecycle management

# Inventory System

## Real-Time Material Visibility

Designed to enhance accountability and eliminate material losses across projects and warehouses.

- **Inward Processing:** Verify vendors, POs, and generate automated GRNs.
- **Material Reservation:** Allocate stock for specific projects to prevent shortages.
- **Movement Tracking:** QR-based scanning for issues, returns, and inter-warehouse transfers.

## Benefits

- Reduce shrinkage and stock discrepancies.
- Prevent material shortages.
- Strengthen project-level accountability.

# Workforce Operations

---

## End-to-End HR Operations

Streamline the entire employee lifecycle from recruitment to exit. The system ensures accurate payroll processing and reduces administrative overhead through automation.

**Key Benefit:** Increased transparency and enhanced workforce productivity.

## Core Modules

- **Recruitment:** Structured hiring and digital onboarding.
- **Attendance:** Biometric integration and mobile check-in.
- **Payroll:** Automated calculations and direct integration.
- **Self-Service:** Employee portals for leave and payslips.

# Mobile & Field Access

---

## Operations Without Boundaries

Empower your field teams with the tools they need to succeed. The IDS mobile app provides access to critical dashboards, approvals, and data entry capabilities anytime, anywhere.

- Fleet monitoring on mobile devices.
- On-site asset tracking and auditing.
- Remote attendance logging.
- Real-time push notifications and alerts.

# Why Enterprises Choose IDS?

-  **Fully Integrated:** A single ecosystem for fleet, asset, inventory, and HR.
-  **Real-Time Analytics:** Dashboards that drive smarter, faster decisions.
-  **Scalable Architecture:** Custom solutions that grow with your enterprise.
-  **Compliance-Ready:** Built-in features to ensure regulatory adherence.
-  **Cost Efficiency:** Proven reduction in operational costs and wastage.
-  **Lifecycle Management:** maximize value from acquisition to disposal.
